DRAFTING / GIS & DATA PROCESSING SERVICES

THINK

about us

THINK Envirotechnical Services is an environmental consulting support service with offices in Calgary and Regina. We provide professional drafting, GIS, and data processing services to environmental consultants of all sizes and have completed thousands of projects for clients across Canada.

Our team includes environmental CADD/GIS specialists, a senior environmental geologist, administration and data management staff, and network support. We can hit the ground running on any environmental project, providing excellent quality work, competitive rates, and quick turnaround times.

We are the only company of its kind, dedicated to helping environmental consultants of all sizes and scope present their data in the most professional and efficient manner.

our vision

To be known in the environmental consulting industry as the foremost provider of quality environmental drafting, GIS and data processing services.

our mission

To treat every client as if they were our only client, producing the best quality product with the highest level of efficiency.
