

Aligning Your Team...Your Competitive Advantage!

Darel Baker, Keldar Leadership

Lack of focus on the collective goals of an organization or team result in less than optimal performance. It doesn't need to be that way and by practicing a few key behaviors on a regular basis you ensure that all of those who are on your team are moving in the same direction and maximizing their potential!

Darel Baker

Darel specializes in meeting with Owners, Partners and Senior Leaders of organizations helping them identify solutions that will overcome challenges and help take them to the next level.

Through a discovery process with key individuals, clear plans of action are identified. The solutions identified are focused on aligning the actions of individuals and teams with the organizations overall objectives.

Prior to creating Keldar Leadership, Darel held leadership positions in the Private Sector, the Public Sector and the Not for Profit Sector. Having led management teams and other high performing teams with a number of companies and organizations Darel has overcome challenges and maximized strengths to help create success. Darel has had the opportunity to work with an incredibly diverse range of personalities and talents. Successful recruiting, hiring and development of team members have been keys to success throughout his career.

Darel is a 4th generation Albertan and grew up on a farm in central Alberta. Community service has always been important and currently Darel is actively involved on the Executive Committees of the Rotary Club of Edmonton and the St. Albert Chamber of Commerce.
