Community

We create spaces where people connect with nature and one another. We bridge communities and perspectives to cultivate unity, working together for lasting, positive change.

Project Forest

Transparency

We document, monitor, and share our processes and findings with partners and the public—every step of the way, on every project.

Project Forest

Responsibility

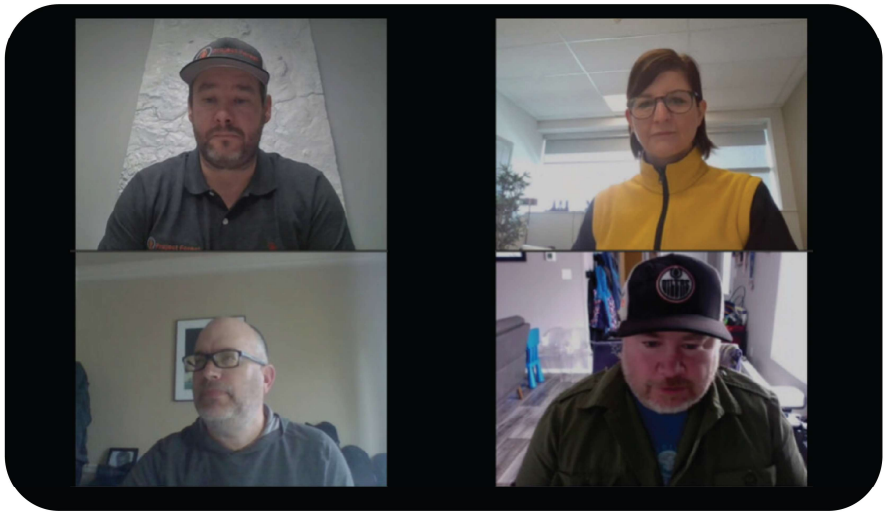

We believe it is our responsibility to use our skills, knowledge, and experience to bring about positive change in the world.

Project Forest

Ecological Reconciliation

The Re-introduction of Traditional Plants, Foods and Spaces to Swan River First Nation

Dustin Twin of Swan River Nation says it best, “Success to me means taking my grandkids and great grandkids to the forest we’re planting with Project Forest. We will walk on a trail, sit with our ancestors’ spirits, and pick berries. It’s a feeling of security, of knowing my family can take care of themselves. I love that the people at Project Forest are willing to do things that will benefit future generations.”
